EXPERIENCE

[Creative Software](#), Dhaka — Software Engineer(PHP, Laravel)

FEBRUARY 2023 - PRESENT

- ❖ Developed and optimized multiple web-based projects, improving performance and scalability.
- ❖ Designed and implemented RESTful APIs for seamless integration with third-party services.
- ❖ Worked on database optimization, improving query performance and reducing server load.

Key Projects:

- ❖ [Dokan POS Pharmacy](#) is a comprehensive pharmacy management system where I developed key features like Medicine Sale Management, SMS Integration, Stock Tracking, Barcode Generation, Accounts Handling, and Report Generation to streamline operations and enhance efficiency.
- ❖ [Dman Delivery Service](#) is a courier management system I enhanced with key features like Rider and Employee Attendance Tracking, Order Hold and Reschedule, and Live Tracking for real-time updates. I developed a REST API for order management and integrated third-party services like Pathao, Rdex, and Bkash. Features like Return/Partial Delivery/Exchange systems, Area Management optimization, and a Rider Commission System were added for efficiency. The Merchant Discount feature and Hub Operations management improved coordination. Android App([Dman Merchant App](#))([Dman Rider App](#))
- ❖ [Bosumoti Express BD](#) is a courier and logistics management system for document parcel delivery. I implemented key features to enhance efficiency and reliability, including secure document delivery, real-time tracking, and automated status updates for improved transparency. Additionally, I integrated features like Track Parcel, Add Order, and Search Document, making parcel management more seamless.

SKILLS

Programming Language : C, C++, Java, JavaScript, PHP.

Framework : Vue.js, Laravel, Ajax, JQuery.

Database: MySQL, Firebase.

Web Technology: HTML, CSS, Bootstrap.

Web Hosting: Namecheap, Hostinger, VPS, Cloudflare

LANGUAGES

English and Bangla

EDUCATION

Metropolitan University, Sylhet — *Bsc(Engg.) in CSE.*

CGPA: 3.59 out of 4

MY PERSONAL PROJECTS

Survey Application — *[Laravel + VueJs]*

- ❖ Users can easily create surveys with dynamic forms tailored to their needs, making it simple to collect targeted feedback.
- ❖ The ability to share surveys publicly allows for broad participation, gathering responses from a wide audience.

Link : https://github.com/SuheL-Roy/laravel_vue_survey

Task board Application — *[Laravel + VueJs]*

- ❖ Tasks are visually represented on boards, making it easy to see who is working on what and the progress of each task..
- ❖ Tasks can be categorized (e.g., To Do, In Progress, Done), reducing confusion and ensuring clarity on task status..

Link : https://github.com/SuheL-Roy/Trello_board

Insurance Management System — *[Laravel + SSLCOMMERZ Payment]*

- ❖ This system greatly benefits insurance companies managing diverse policies.
- ❖ Upgrade your client insurance record management with our ideal web-based Life Insurance Administration System
