

SUMMARY

I'm a dedicated WordPress Developer and Team Leader with a strong record of building high-quality websites. I focus on creating custom sites that not only meet client needs but also look great and work smoothly. I enjoy working with teams, leading projects, and making sure everything is delivered on time. My goal is always to get great results and keep improving with every project.

EXPERIENCE

WordPress Developer & Team Leader

One Stop It BD

09/2024 - Present

Dhaka

- Leading a team of WordPress developers, managing project timelines, delegating tasks, and ensuring top-quality code and delivery across multiple projects
- Developing custom WordPress websites from scratch using Elementor, focusing on responsiveness, performance, and clean UI/UX
- Building and maintaining WooCommerce eCommerce websites, handling everything from product setup to payment integrations
- Converting PSD designs into fully functional WordPress websites using Elementor with pixel-perfect precision
- Implementing Advanced Custom Fields (ACF) to create and manage dynamic content and custom post types
- Regularly collaborating with international clients — attending meetings, gathering requirements, providing updates, and ensuring complete satisfaction

Executive - Web Development (WordPress)

Center of Digital Marketing (CDM)

10/2023 - 08/2024

Dhaka

- Developed and maintained multiple WordPress websites for both national and international clients
- Led a team of WordPress developers ensuring the successful delivery of projects exceeding client expectations
- Implemented customizations to enhance functionality and improve the overall user experience
- Collaborated directly with clients to understand specific requirements delivering tailored WordPress solutions to meet business objectives
- Troubleshooted and resolved various front-end and back-end WordPress issues
- Optimized and improved the speed and performance of WordPress sites
- Provided technical support to clients for their WordPress sites
- Conducted regular training sessions for the team on the latest WordPress updates and development techniques
