PROFILE

Experienced WordPress Designer specializing in WordPress, Elementor, and WooCommerce, with a strong focus on clean, modern, and fully responsive website design. I build and redesign websites that are SEO-optimized, user-friendly, and enhanced with advanced features such as AI chatbot integration and workflow automation using Make.com. With a passion for mathematics, problem solving, and programming, I bring analytical thinking to every project. I am open to part-time, full-time remote roles, internships, or project-based work. Known for my commitment to team collaboration, agency growth, and timely project delivery.

WORK EXPERIENCE

- Freelance WordPress Designer** 2024- PRESENT
Self-employed | Remote
 - Specialized in designing and redesigning websites using WordPress, Elementor, and WooCommerce for global clients in niche markets.
 - Built 2 fully functional websites for **law firms**, with clean UI, clear service structure, and contact integrations tailored for legal clients.
 - Developed a purpose-driven **Child Abduction** Awareness website, ensuring a user-friendly interface, strong visuals, and trust-building elements.
 - Created a dynamic **Islamic Learning website** featuring course structures, blog functionality, and multilingual readiness for broader reach.
 - Designed a complete business website and a landing page for two construction companies, including **SEO optimization, AI chatbot integration, and Make.com automation workflows**.
 - Conducted lead generation by **scraping data from Google Maps**, targeting relevant businesses globally to secure freelance projects.
 - Delivered all projects on time with **100% client satisfaction**, showcasing strong communication, creative design, and attention to detail.
