- English - Native

## PROFILE

As an enthusiastic and detail-oriented junior web developer, I gain hands-on experience in building responsive, user-friendly websites and web applications. With a Diploma in Software Engineering specializing in software and a focus on web technologies, I have honed my skills through real-world client projects, building and deploying both front-end and back-end solutions using HTML, CSS, JavaScript, React.js, Next.js, Node.js and Tailwind CSS. Interested in starting my career with a paid internship or entry-level role, I am eager to contribute to innovative teams, sharpen my problem-solving skills, and become a skilled full-stack developer while adopting new technologies and learning from experienced professionals.

## WORK EXPERIENCE

### Freelance Web Developer

*Self-employed / Remote*

- I had the pleasure of collaborating with individual clients to create responsive and interactive websites using Next.js, React, and Tailwind CSS!
- I created user-friendly and fully functional interfaces that are tailored to meet our clients' needs.
- I created a product catalog system that features API integration, image sliders, and dynamic product pages. It's all set to enhance the shopping experience!
- I set up contact forms, quote request systems, and admin dashboards to give our clients more control. I also worked closely with clients to understand their needs, adapt based on their feedback, and stay on track with deadlines.
