SKILLS

Languages & Frameworks: PHP, Laravel, JavaScript, React, Next.js, Node.js, Python, Framer Motion, GSAP | **AI & Intelligent Systems:** AI Agent Development, AI Automation, AI Tools Integration, Prompt Engineering | **Web Development:** HTML, CSS, Bootstrap, Tailwind CSS, SASS, WordPress, Shopify | **Databases & APIs:** MySQL, MongoDB, REST API Development & Integration | **Cloud & DevOps:** AWS, VPS Management, Domain & SSL Configuration, Hosting Optimization, CI/CD | **Tools:** Git, GitHub, Figma, Adobe XD | **Other Expertise:** UI/UX Design, Digital Marketing, Content Creation

- All professional proficiency or above

EXPERIENCE

Senior Full-Stack Web Developer | Feenix Lab

September 2023 – Present

- Led full-cycle development of high-impact projects, including **Feenix Lab Website (Next.js, Laravel, Framer Motion)** and **WebWowZer (Next.js, PHP, MySQL)**, delivering scalable and visually engaging platforms.
- Directed **cross-functional teams (5-8 developers)**, providing technical oversight, mentoring junior developers, and ensuring timely, high-quality deliveries.
- Spearheaded **custom e-commerce and SaaS solutions** by integrating APIs, implementing drag-and-drop builders, subscription management, SEO modules, and multi-language support.
- Developed and designed diverse **WordPress** and **Shopify** platforms, theme redesigns, and advanced performance tuning, significantly improving client satisfaction.
- Designed and deployed **enterprise-grade backend systems** in Laravel with modular architecture, API-driven integrations, and robust authentication.
- Managed **cloud and DevOps operations** (Amazon Web Services, VPS configurations, SSL/domain management) to improve scalability, security, and reliability of client systems.
- Introduced innovative UI/UX improvements, creating **10+ reusable templates**, and contributing to frontend design systems **using open-source website builder**.
- Supervised the development of a **QMS (Queue Management System)**, from technical research and requirement analysis to UI/UX refinement, establishing the foundation for a future SaaS product.

Web Developer Intern | Shadow Entertainment

February 2023 – July 2023

- Enhanced website functionality by implementing responsive design, boosting user engagement significantly.

- Collaborated with a development team to maintain and optimize websites, ensuring seamless performance.
- Gained hands-on experience in modern web technologies during this collaborative internship.

Lab Assistant Intern | American International University – Bangladesh Summer 2022

- Supported Algorithm Lab sessions, guiding students in algorithmic problem-solving.
- Facilitated discussions and provided technical feedback to strengthen student learning.

EDUCATION

Bachelor of Science in Computer Science and Engineering Class of 2023

American International University – Bangladesh | **CGPA: 3.65/4.00**

Higher Secondary Certificate (HSC) 2018

Dhaka College | **GPA: 5.00/5.00**

Secondary School Certificate (SSC) 2016

Ideal School and College | **GPA: 5.00/5.00**

PROJECT HIGHLIGHTS

- **Feenix Lab** – Built with **Next.js + Laravel**, designed API-driven architecture, led frontend team, and delivered a visually dynamic, scalable platform using **Framer Motion**.
- **WebWowZer (SaaS Website Builder)** – Oversaw development of a **drag-and-drop website builder** (Next.js, Node.js, Laravel, AWS); directed creation of **10+ reusable templates** and integrated cloud solutions.
- **OPTIBIO (Shopify E-Commerce)** – Customized Shopify with **Liquid & JavaScript**, delivering rapid client-driven updates, new features, and performance enhancements.
- **Bibo Trend** – Developed a **full-featured Laravel e-commerce platform** with an Admin Dashboard for order processing, customer management, and product management.

Additional Projects: Delivered **rapid website replications** (48-hour delivery), built **full-featured WordPress e-commerce sites**, developed **30+ responsive landing pages & dynamic websites**, executed **VPS migrations for scalability**, and **designed & developed UI/UX** for multiple platforms.

LEADERSHIP & RESPONSIBILITY

President | Team Horizon (Engineering Community Organization) Jan 2021 – Present

- Leading a **team of 15+ members**, organizing knowledge-sharing sessions, and community events.
- Driving initiatives to empower students in science and engineering through collaboration.
