

# MUHAMMAD ALI SAMI

## Web Application Developer

Jatrabari, Dhaka • +8801932401533 • alisamicse320@gmail.com

## OBJECTIVE

I seek a challenging role as a PHP Web Application Developer, using my PHP framework experience to create innovative applications. Committed to lifelong learning, I constantly enhance my skills and stay updated with web development trends. With strong problem-solving and communication skills, I am eager to contribute to groundbreaking web solutions and thrive in environments promoting continuous learning and professional growth.

## WORK EXPERIENCE

### Junior Software Developer, Qbit Tech Dhaka

1 st Feb 2024 - Present

- Designed and developed core academic and financial modules including student PDF generation, notice management, fee collection, and institutional income tracking.
- Implemented role-based access for administrators, teachers, and students to streamline daily academic operations. Enhanced reporting features with exportable documents (PDF/Excel) to support decision-making and compliance needs.
- Built student PDFs, notices, fees, and income modules for Digital Campus.
- Developed fund collection, expenses, and trustee board features.
- Developed API to sync products to TajizFood.com e-commerce.
- Implemented product/category filters, order statuses, and CMS sections.
- Developed AtripzBD (Laravel): POS, stock management, variant product handling, Stead-fast Courier API integration, Pathao Curier Api Integration, SMS notifications, advanced filters.
- Built Dhaka Computer Institute LMS for course management and learning outcomes.
- Created Qbit Inventory with POS sales and stock alerts.
- Developed Qbit HRM for payroll, payslips, loans, and attendance .

### Full Stack Web Developer , Isbah IT

Jan 2023 - Jan 2024

#### Hospital Management System (Laravel 10)

Developed a secure, customizable hospital management system with role-based access control and authentication.

**Features:** Doctor scheduling, patient profile management, receptionist collaboration, appointment booking, invoices, prescriptions, and integrated analytics dashboards.

#### Training Center Management Software(Codeigniter 3)

Built an education management platform covering front office, student enrollment, fees, academics, HR, and finance. Modules included visitor handling, inquiries, attendance, exams, lesson planning, and financial reporting.

#### **E-commerce:**

Developed Anghorag Cosmetic Commerce, a full-featured e-commerce platform for cosmetic products. Implemented dynamic product catalogs with category, brand, and price filters, along with advanced search and sorting. Integrated advertising modules, Pathao Courier API for automated delivery, and secure payment processing. Built responsive React frontend and Laravel backend with RESTful APIs, secure authentication, and role-based access. Optimized MySQL database for scalability. Enabled real-time notifications via email and SMS. Technologies used include React, Bootstrap, Laravel, MySQL, Git, and Pathao API.

## EDUCATION

### Bachelor of Science in Computer Engineering

Sept 2018 - Feb 2022

Major in Computer Science

- Contribute in ICPC programming contest

## KEY SKILLS & TECHNICAL PROFICIENCY

- **Programming & Back end:** Proficient in PHP with strong expertise in Laravel, Codeigniter ; experienced in Restful API development and third-party API integrations.
- **Payment Gateways:** Successfully integrated multiple gateways including SSLCommerz and Bkash Payment Gateway and EPS Payment Gateway.
- **Front-end Development:** Skilled in, Tailwind CSS , CSS, JavaScript, jQuery, and responsive design using Bootstrap.
- **JavaScript Frameworks:** Familiar with React.js for dynamic front-end development.
- **Database Management:** Strong command of MySQL with experience in designing schemas and writing optimized SQL queries.
