CAREER OBJECTIVE

As a Front-End Developer transitioning toward Full Stack Development, I aim to enhance my expertise in both client-side and server-side technologies. My goal is to build scalable, efficient, and user-focused applications while continuously expanding my technical skill set.

SKILLS

- **Frontend:** HTML, CSS, Bootstrap, Tailwind CSS, DaisyUI, React.js
- **Backend:** Node.js, PHP, MySQL
- **Tools & Platforms:** VS Code, Git, GitHub
- **Interpersonal:** I possess strong interpersonal capabilities, supported by effective communication, adaptability, and excellent time-management skills.

Projects

🔗 **GameHub** → [CLICK LIVE DEMO](#) → [CLICK REPOSITORY LINK](#)

GameHub is a modern, fully responsive gaming platform built with React, Vite, Tailwind CSS, and Firebase Authentication. Users can browse popular games, view detailed information, and access protected routes through Email/Password or Google login. The app features dynamic routing, a smooth dark-mode interface, and interactive game cards. Game data is efficiently handled using JSON for a seamless browsing experience.

🔗 **HERO APPS** → [CLICK LIVE DEMO](#) → [CLICK REPOSITORY LINK](#)

Hero Apps is a modern web-based App Store platform combining Google Play Store and Apple App Store resources in one place. Its clean, user-friendly design highlights my skills in sleek web development and seamless cross-platform integration.

🔗 **PERFUME BOUTIQUE** → [CLICK LIVE DEMO](#) → [CLICK REPOSITORY LINK](#)

I developed PERFUME BOUTIQUE, handling both the design and full web development of the site. It features a collection of perfumes with prices, categories, and details—showcasing my ability to build visually appealing, user-focused e-commerce interfaces.

🔗 **DRINKIFY** → [CLICK LIVE DEMO](#) → [CLICK REPOSITORY LINK](#)

I developed a visually engaging website called DRINKIFY, featuring dynamic animations of popular beverage cans and bottles like Coca-Cola, Fanta, Sprite, Pepsi, Mirinda, and Mountain Dew. This project reflects my creativity and strong front-end animation skills in modern web development.

🔗 **GREEN EARTH** → [CLICK LIVE DEMO](#) → [CLICK REPOSITORY LINK](#)

I designed and developed an e-commerce-style website using JavaScript, implementing interactive product features and dynamic functionalities. This project showcases my ability to create functional, responsive, and visually appealing web applications with modern UI/UX principles.

Education

Institute: Cumilla Polytechnic Institute
Department: Computer Technology
Passing Year: 2023

Courses & Internship From

Programming Hero, Digi5 Ltd,
Syntecxhub, Teton Electronics Ltd,
Her Power Project (ICT Division)

LANGUAGE

Bangla (Native), **English** (Intermediate)
